## 溫和洗卸兩用慕斯 Gentle Cleansing Mousse

T250425-1

### Description:

This cleansing mousse features a gentle yet effective formulation designed for daily facial cleansing and makeup removal. The primary surfactants, **EcoSense 3000** and **Eucarol AGE/ET MB**, provide mild yet efficient cleansing properties that effectively lift away excess sebum, and cosmetic residues without compromising the skin's natural barrier.

To enhance user comfort and post-cleansing hydration, the formula includes **ERCAREL HE V/FD**, an emollient surfactant that leaves the skin feeling soft and smooth.

**CARBITOL™ Solvent JSQI** is incorporated as a multifunctional solubilizer to aid in the uniform dispersion of ingredients, supporting formula clarity and stability. Meanwhile, **FOAMYSENSE 205** contributes to the rich, mousse-like foam texture and delivers a silky skin-feel upon application.
